

# Oil and Gas Hoses

## Product solutions for applications in the oil and gas industry

- ☆ High chemical resistance
- ☆ Very low volumetric expansion
- ☆ High external pressure resistance
- ☆ High temperature resistance up to 150°C
- ☆ Hose assemblies up to 4500 m
- ☆ Availability of valves, adapter, tubing and coupling

### Applications:

Offshore Hose Bundles, Methanol Service, Chemical Injections, Hydraulic Component Control, Subsea BOP
