

HIGH PRESSURE PERFORMANCE

## Innovative Solutions

### Quick Turn Needle Valve Features:

- Valve fully opens in less than two turns
- Stem is lifted off of the seat two times faster than conventional valves, increasing seat and stem life
- Reduces operator fatigue when opening/closing
- Bi-directional flow capability simplifies system design
- Three piece, heavy duty, non-rotating stem
- Manufactured in USA

### Ordering Information

- Designate "QT" after standard needle valve part number for Quick Turn design (Ex: SS-NVNF8-15K-QT)
